

PINE CONDOMINIUMS  
INSULATION CERTIFICATE

The following types and R-rating of insulation are installed in and around Units 1-15 of Pine Condominiums.

- (a) Exterior walls insulated with Owens Corning Fiber Glass to a thickness of 5 ½ inches, which, according to the manufacturer, will yield an R-value of R-23 or R21 advanced.
- (b) Ceilings insulated with Fiberglass loose fill - 16" thick – R60.
- (c) Floors over unheated areas insulated with Owens Corning Fiber Glass to a thickness of 8 inches, which, according to the manufacturer, will yield an R-value of R-38.
